## SETTLEMENT OF ORLAND

*Record of the first settlement of the Town of Orland when  
Plantation No. B, and a part of the Town  
after it was incorporated.*

---

This plantation was granted to proprietors Wm. Dall, Nathaniel Snelling, Robert Treat and others, then living in Boston, on condition that if said proprietors would have so many actual settlers in the plantation in so long a time, then they were to have a grant from General Court. The first settler of the plantation was Joseph Gross, who moved from Fort Pownal, now Fort Point, about three miles from the mouth of Eastern River, in the year 1764, and settled on the eastern side of the Eastern Penobscot River, and on the same lot that is now owned and occupied by Luther Higgins. The next settler was Ebenezer Gross, brother to Joseph, who moved from Boston and settled on what is called Gross Point, in the year 1765. The next was Joseph Viles, who moved from Milton, Mass., and settled on the east side of Eastern River near Mr. Gross, in the year 1766, and on the same lot that is called the Perry Farm. Mr. Viles built the first framed house in the plantation in the year 1777. This house and John Hancock's were used for holding their plantation meetings until they built a school-house in 1800.

Zachariah Gross was the first white male child born on the plantation, in the year 1766. The first man that died and was buried on the plantation was Samuel Cushing, of Scituate, Mass., who was drowned in the Eastern River, May 17, 1770, and was buried in what is called the "Old Burying Ground."

Between 1767 and 1780 quite a number moved from Boston and its vicinity and took up settlers' lots on the east side of the river. Among the most noted were John Hancock, Samuel Keyes, Samuel Craige, Samuel Soper, Calvin Turner, Asa Turner and Humphrey Holt.

John Hancock and Samuel Craige laid out the first road in the plantation in the year 1771. The first Saw Mill and Grist Mill was built at the lower falls, by Calvin Turner in the year 1773. Robert Treat was appointed agent by the proprietors of this plantation to run out lots to settlers, and he ran out the lots at the upper falls in the year 1774, and commenced to build the first Saw Mill at the upper falls the same year. In the year 1781, Ezekiel Harriman, Peter Harriman, and Asa Harriman moved from plantation No. 1, now Bucksport, and each took up a settler's lot.

James Ginn moved from Brewer and took the mill of Robert Treat and carried it on until 1797, and in the mean time he built one Brig and two Schooners at the upper falls, and then moved to Bucksport, where he spent the remainder of his days.

In the year 1797 Robert Treat sold this mill and lot to John Lee, of Castine, who built a large Saw Mill and Grist Mill, and did a large business in the lumber line for a number of years until about the year 1816.—Joseph Lee took this mill of his uncle John and carried it on until 1807, and then he moved to Bucksport.

In the year 1773 an old hunter came from Concord, Mass. by the name of Michael Davis, and took up a lot about three miles from any settler and built a log house on a ridge of land, and hunted for a living, as there was a great quantity of game at that time. He lived alone like an old hermit, until James Smith, Nathan Hancock, John Gross, Joshua Gross, and Andrew Craige moved in and took up settlers' lots that were run out for settlers in 1780; this land was settled by the sons of the first settlers, except James Smith, and was considered the best land in the plantation at that time. James Smith took this Mr. Davis to support for his place, and there he lived and died at great age.

Jacob Sherburne was hired by the proprietors of this plantation to run and lot the same, and he moved down from New Hampshire, and took up a lot on what is now called Sherburne's Point, near a stream, in the year 1791, and in

1793 he finished running out the plantation. The first county road that was laid out through this plantation was in the year 1791. The first bridge that was built across the Eastern River was built in the year 1793, the county furnished sixty pounds and the plantation raised fifty pounds more.

The town was incorporated in 1800, by Joseph Lee, and he called it Orland. Joseph Lee was the first Town Clerk in the town in 1801.

The first School-house was built in 1800, and it was used for a meeting-house and a town-house for a number of years. John Lee, of Castine, brought the first Chaise in the town, in 1811. Thomas Hancock, of Orland, now 88 years old, is the only persons of the second generation that is now living, that moved from Boston. His father, John Hancock, helped lay out the first road in the plantation in 1771.

I was born at what is called the Upper Falls, in Orland, March 7th, 1790, where I have lived and spent my days ever since. There has been a great change in the town since I was a boy; at that time it was a dense wilderness, and the greatest township in the county for all kinds of timber, especially pine, and it has about all been taken off and carried to market, and no one has got rich out of the operation.

The first settlers of this plantation must have suffered extremely, especially their children, for the want of bread, as the only communication was by traders that came from Massachusetts at that time. Had it not been for the great quantity of Salmon, Shad and Alewives in the rivers, this plantation could not have been settled at the time it was.

I have taken some of the most essential parts of the old record, and I hope that our town officers will have the goodness to make a record of all, or a part, so that if posterity should like to know from whence they sprang, and who they are, they can search the record for information.

Daniel Harriman,  
Orland, Maine,

October 14, 1870.

During the last year the Selectmen with the cooperation of the other Town Officers have tried to operate the town's business with as few overdrafts as possible.

Due to additional forms, more bookkeeping and red tape we discontinued surplus food last spring. We realize this caused some hardship for some of our older citizens, but under the circumstances there was no alternative.

We thought there was a possibility we might get funds from the Economic Development Commission to help build a new Town Office or Municipal Building. It appears at this time there are no funds available. Therefore, we are putting an article in the warrant to take \$500.00 from Surplus. We have been promised a figure for the repairs.

The overdraft in the dump account (\$236.32) was caused by cost of maintenance. The dump has to be pushed back and burned otherwise the parking space at the top quickly fills up.

The overdraft in the School Trustees Account is due to the fact that we do not clear money enough on our fish account to pay the bond and interest. We could appropriate for this account or let it go as in former years. Recommendation \$500.00

During 1965 the State Aid Money for 1964 and 1965 plus an allotment from the State was spent at North Orland. We feel that if two units (\$2,400.00) are raised this year and carried over one year plus two units in 1967 (\$2,400.00) with an allotment from the State, this piece of road can be completed. We would recommend that the Back Ridge road be designated as State Aid road at that time.

By combining Town Funds, T. R. I. Funds and Tar Money the road to Joe Soper's corner was completed in 1965. This should help on maintenance. Some Town Funds and T. R. I. Funds were also spent in Gilpen during the past year. We feel that the Gilpen Road should be completed to Mead's Corner or as far as possible this year, and to tar as much of this road as possible to save on maintenance and keep the road in good condition.

We owe special thanks to Mr. Linwood Robshaw for his efforts in bringing our Civil Defense up to standard. The Town and the men plowing have been very fortunate in having Mr. Hanscom's shop at their disposal. We would like to take this opportunity to thank all of our Town Officers and tax payers for their cooperation.

Respectfully submitted,

**BOYD MARKS**, 1st Selectman

**EARL CHANDLER**, 2nd Selectman

**PHILLIP DAVIS**, 3rd Selectman

## REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Superintending School Committee and Citizens of the Town of Orland:

I herewith submit my tenth annual report as Superintendent of Schools for the fiscal year ending December 31, 1965.

The new Local-Effort School Subsidy law passed by the recent legislature increased Orland's subsidy allotment from \$58,951 for 1965 to \$69,469.08 for the school year 1966. This has made it possible to meet the rising costs and at the same time lower the town's appropriation for schools. The estimated school appropriation for 1966 is \$64,032.79 compared with \$68,893.51 for 1965, a reduction of \$4,840.72.

The two major items in the school budget are for teachers' salaries and high school tuition. The 1965 legislature passed a minimum salary law which requires all towns to increase teachers' salaries by at least \$300 a year until the maximum is reached. As a result, it is necessary to increase the teacher budget by approximately \$3,000 for 1966. Most of Orland's teachers with degrees are not being paid the maximum salary and must be given \$300 increments effective in the fall of 1966. Increases will also be given the non-degree teachers. High School tuition, the second major item in the school budget, increased this year. Out of a total school budget of \$113,115.54, over 40 per cent is expended for tuition fees. Close to 100 boys and girls are now attending high school and as school costs increase, there is a corresponding increase in tuition fees. Bucksport High School's tuition fee this year is \$539. Considering the size of the classes that will be graduating from the elementary school, an increase in tuition costs must be expected.

We are again including in the budget the sum of \$2,000 to be placed in a School Bus Reserve Fund. This policy enables us to purchase new buses when needed, without having to borrow and pay interest. This past year a new Ford bus was purchased and paid for under this plan. We antici-

pate that by the time another bus replacement is due, that there will be ample funds in the School Bus Reserve to meet the cost.

The enrollment in the Orland Elementary School is continuing to increase. This building was originally constructed to house 240 pupils and we now have an enrollment of 291. If this trend continues and we have to alleviate this over-crowded situation there are two possible solutions:

1. Two additional classrooms could be constructed, which would probably involve additional lavatory facilities and a new heating plant. Estimated cost could be in the vicinity of \$40,000.

2. One classroom could also be made available in the Orland school by transferring the eighth grade to Bucksport Junior High on a tuition basis. There would be definite educational advantages to the children in this solution:

a. There would be smaller classes—organized on a departmental basis with ability grouping.

b. Physical Education and Health programs are offered both boys and girls.

c. A Shop program would be available for the boys and Home Economics for the girls; and the boys and girls taking the college course would also be offered a course in French.

The Bucksport elementary tuition rate is \$309 this year and is estimated at \$320 next fall. As the large classes come along the tuition cost could increase to \$10,000. 58 per cent of this amount would be subsidized by the state.

Our thanks and appreciation to the School District Trustees for their cooperation during the past year. There has been some difficulty with the sewage disposal system entailing considerable time, effort and expense on their part. Minor repairs, etc., have been taken care of by the School Department. As the years go by it is quite evident that some major repairs on the heating and piping system will have to be considered.

There were no changes in our excellent teaching staff this past year. However, it is with regret that we announce the retirement of Lena Cunningham, our sub-primary teacher. In our opinion, Miss Cunningham is one of the most able sub-primary teachers in the state. She has served with distinction and devotion all of the pupils who have attended the Orland Schools. Her interest in the children is well known and she leaves a place in the hearts of the Orland people that will be hard to fill.

I conclude my tenth annual report with sincere appreciation for the cooperation and courtesies extended to me as your Superintendent of Schools. It is my sincere hope that the citizens of Orland are happy and satisfied with the educational program now being offered to their children. I can assure you that every effort is being made to meet the challenge of a rapidly changing civilization.

To the Members of the School Committee who have so willingly given of their time and efforts, I extend my thanks and appreciation.

The report following includes a financial accounting showing the full receipts and expenditures for the past municipal year. The proposed budget for 1966 is also included.

Respectfully submitted,  
PAUL J. BROWN

## **PUBLIC HEALTH NURSING SERVICES**

**In Orland for the Year 1965**

Your public health nurse is concerned with any health problem that effects the well being of the individual, the family, and the community. She is interested in the prevention of illness and the promotion of health.

Your public health nurse, a member of the staff of the Division of Public Health Nursing, provided the following public health nursing services in Orland during the year 1965.

Health supervision calls were made to expectant mothers, infants, preschool and school children for the purpose of discussing normal growth and development, and pertinent health problems.

In the spring three Child Health Conferences were held. Physical examinations were given and protection was offered against whooping cough, diphtheria, tetanus and polio-myelitis.

The school has been visited to confer with teachers regarding health problems and individual health needs. Physical examinations were given to children in grades two, four, six and eight by Dr. Berry, school physician. This year we started what we hope will be a comprehensive immunization program. Children entering school are able to receive immunizations at the Child Health Conferences. To maintain the immunity required booster doses are given at recommended intervals. This has been arranged so children can receive their immunization at the time of the physical examination.

The hearing of children in grades one, three, five, and seven was tested on the Puretone Audiometer.

The Mantoux test for tuberculosis was given to children in the sub-primary and seventh grades.

Visits have been made to adults to demonstrate nursing care and to interpret medical recommendations.

I want to thank Dr. Berry, the Health Committee, school personnel and all who have worked so earnestly to promote the health program in Orland.

Respectfully submitted,

LENEITA BUTLER, R. N.

Public Health Nurse

# AUDITOR'S REPORT

GLEASON & DOW

Accountants & Auditors

Board of Selectmen

Town of Orland

Orland, Maine

Gentlemen:

In accordance with Chapter 90-A, Revised Statutes of 1954. We have made an audit of the financial records of the Town of Orland, Orland, Maine, for the calendar year ended December 31, 1965.

Our examination was made in accordance with generally accepted auditing standards applicable to municipal auditing, and included such tests of the accounting records and other auditing procedures as were considered necessary in the circumstances. We did not, however, audit the Orland School Lunch Program.

In our opinion the enclosed financial statements labeled "Exhibit A through E, present fairly the financial position of the Town of Orland, Orland, Maine, at December 31, 1965, and the results of its operation for the year then ended.

Very truly yours,

GLEASON & DOW

(A Copy of the complete Audit Report is on file at the

### HYDRAULIC SYSTEM

Appropriation	\$ 1,200.00
Warrants Drawn	\$ 1,200.00

During 1966 we feel that we have made substantial progress even though our budget was less in 1966 than in 1965. Our unexpended balance exceeds our overdrafts. The explanation of the overdrafts is as follows:

Summer Road Account—Costs of gravel and grading prior to tarring was charged to this account. Late in the fall, we had a heavy rain which added to this account.

Winter Account—A new wing was bought for one of the plows plus a new hydraulic ram for another. Major repairs and enough steel was bought in 1966 to go through 1967. These added to the regular cost of operations caused the overdraft.

Dump Account—Costs of maintaining dump and road, plus costs of meeting State requirements caused this overdraft. The dump is inspected regularly by State Inspectors, and it must be maintained according to State Law or closed.

The Town Office has a new ceiling, which is insulated. The office has been painted, and a new entrance was made. A storm door and combination windows have been installed. This building will need new shingles in the near future.

The new hydraulic system has been installed on the White Truck and is a huge success.

Through Civil Defense, the Town acquired a steel plow and wing from the Federal Hatchery at East Orland. Our thanks to Mr. Marchyshyn. This plow can take the place of the wooden plow eventually.

The Town Road Improvement money, which is a grant from the State, was used on the East end of the Gilpin Road. This road now has a tar surface as far as the Paul Allen property. In 1967, we would like to spend the Town Road Improvement money on Leaches Point from the corner near Purl Ames house toward the end of the point.

Due to the fact that we have acquired roads from the State and are tarring roads as fast as they are improved, the Selectmen are recommending that the Town raise \$4,000.00 for the Tar Account in 1967.

The Town has four units (\$2,400.00) for State Aid in reserve; so we do not have to raise any money this year (1967). This money plus the \$4,200.00 from the State will give us \$6,600.00 to spend in North Orland. We are hoping for a special appropriation to add to this amount.

The new signs advertising Orland are ready to be put up in the spring.

Our Poor Account has dropped somewhat through the efforts of those involved and the Works Training Program.

The State Department of Health and Welfare allows recipients of Mother's Aid so much per month according to the number in each family and other circumstances. The Town pays eighteen per cent of the total of this amount. The Selectmen have contacted our Representative, Mr. Cushing, in favor of passage of a bill to do away with the Town's share of this payment.

The Medicare Program pays for some of the hospital and medical expense of Old Age Assistance recipients, which will be a help to the small towns.

We feel that something should be done about the Town Hall. A group of citizens cleaned it out, and painted the inside last year in anticipation of dances. If the Town is going to keep it, the building should be shingled and painted. A heating plant of some kind should be installed.

The Lighting Account should be separate from the Current and Contingent Account. Therefore, we are asking for nine hundred dollars (\$900.00) to cover the costs of street lights, Town Office, and Town Hall.

In 1967, the Town will make its last payment of \$4,000.00 plus interest on the School Addition Account.

The increase in the total budget is roughly what we are asking for the repairing of the Town Hall.

We wish to take this opportunity to thank our fellow Town Officers, Mrs. Peavey, our secretary, our Ballot Clerks, who really do a good job, and the Taxpayers for their cooperation during the past year.

Respectfully submitted,

BOYD MARKS, 1st Selectman

EARL CHANDLER, 2nd Selectman

PHILIP DAVIS, 3rd Selectman

## **REPORT OF SUPERINTENDENT OF SCHOOLS**

To the Superintending School Committee and Citizens of Orland.

I, as Superintendent of Schools, herewith submit my eleventh annual report for the fiscal year ending December 31, 1966.

The Town of Orland has voted to join School Administrative District No. 18. Before becoming a member of the District Orland must first be accepted by the two towns—Prospect and Verona—now composing the District.

Within the next few weeks a special town meeting must be held in both of these towns—to vote to either accept or reject Orland's application. If there is an affirmative vote then a three-town District will be formed and Orland will receive an additional 10% increase in its State subsidy. Before a vote in the District is taken, operating revenues for 1967 will be raised by Orland in a town meeting and by the District in a budget meeting. If the new District is approved, the funds will be pooled and all operating expenditures will be paid from the new District's funds. The following year all District school funds will be raised at a public budget meeting held in one of the three towns.

The school appropriation for 1967 is only slightly larger than last years. Though there is a considerable increase in estimated School expenditures for 1967, this was partially offset by an increase in the State subsidy of approximately \$14,000. It is well to point out that the subsidy is set for two years, which implies that the town will have to pick up any increase in school costs for 1968.

School enrollments have increased again this year. There are over 300 children in the Orland Elementary School; the normal capacity of this school is 240 children. It is apparent that enrollments will continue to increase. To help reduce the overall teacher load, an additional teacher

has been employed. As no additional classrooms are available, the stage and the Principal's office are being used as such—both of which are inadequate.

There are two possible solutions to the building problem in Orland and both are expensive:

1. Four classrooms could be added to the present elementary building at an estimated cost of \$60,000. Two of these classrooms are needed for next fall and the other two for future growth.
2. The other solution is to send the eighth grade to Bucksport where a good junior high program is offered. However, this is not as simple as it appears, as the Bucksport Junior High is nearing capacity.

Sending them to Bucksport would be the better solution from an educational viewpoint, as a small school is never able to offer the broad program offered by a larger one.

High school enrollments and costs also are on the increase. At the present time, there are 104 enrolled, with 101 attending Bucksport and three attending different private schools. As the compulsory school law requires all pupils to remain in school until they are 17 years of age, it is apparent that high school enrollments will continue to grow. With this growth will come a corresponding increase in the tuition budget because of rising tuition fees.

Orland has been fortunate in keeping most of its teaching staff. However, if it wishes to retain their services, a substantial increase amounting to several hundred dollars per teacher, must be given them. The present salary schedule is one of the lowest in the State and only by making the salary attractive can we hope to retain an adequate school staff. With this thought in mind the budget for teachers has been increased from \$51,044.02 in 1966 to \$57,273.71 for 1967.

Several of the staff left during the past year. Mr. Hugh Drisko, a graduate of the U. of M. and a former teacher in the Orrington schools, was hired as Principal and eighth grade teacher. Mrs. Janet Sundman, a graduate of

the U. of M., is the new fifth grade teacher and Mrs. Edrie Heath, a former teacher in the Penobscot Elementary School and a graduate of Farmington Normal, is teaching the overflow from the upper grade groups. The second grade replacement is Mrs. Wilda Phinney, a graduate of the U. of M. who formerly taught in Bucksport. Mrs. Eleanor Tennant, a graduate of Castine Normal School who taught in Verona and Bucksport for several years, replaced Miss Lena Cunningham as the kindergarten teacher. Miss Eugenia Churchill, who is attending the Northern Conservatory of Music, is the new music teacher.

We once again express our thanks and appreciation to the School District Trustees and the Orland Road Commissioner, Mr. Carl Hanscom, for their cooperation and help during the past year.

I want to express my personal appreciation for the interest, encouragement and help given me during the past year by the members of the Superintending School Committee in the administration of the school. The School Committee joins me in expressing appreciation to the teachers, Parent Teacher Club, School District Trustees, school lunch cooks, bus drivers and janitor for their work done and interest shown in the school. To all others who have contributed to the success of the past year, our personal thanks and appreciation.

Respectfully submitted,

# AUDITOR'S REPORT

GLEASON & DOW

Accountants & Auditors

75 Main Street

Ellsworth, Maine 04605

February 17, 1967

Board of Selectmen

Town of Orland

Orland, Maine

Gentlemen:

In accordance with Chapter 90-A, Revised Statutes of 1954, we have made an audit of the financial records of the Town of Orland, Orland, Maine, for the calendar year ended December 31, 1966.

Our examination was made in accordance with generally accepted standards applicable to municipal auditing, and included such tests of the accounting records and other auditing procedures as were considered necessary in the circumstances. We did not, however, audit the Orland School Lunch Program.

In our opinion the enclosed financial statements present fairly the financial position of the Town of Orland, Orland, Maine, at December 31, 1966 and the results of its operation for the year then ended, applied on a basis consistent with that of the previous year.

Very truly yours,

GLEASON & DOW

A complete copy of our audit report is on file with the Town Officials.
